art Changes in light

Burlington artist Kasy Prendergast, in her first solo show at the Doll-Anstadt Gallery, interprets Vermont landscapes in the rarely seen form of abstract. Gallery director Stephen Doll says Prendergast's acrylic paintings "have a contemplative, nuanced quality that captures the changes in light and seasons of Lake Champlain." The exhibit, called "**Sessions in Light: Lake Champlain Series,**" continues through August at the gallery, 87 College St. in Burlington. 864-3661 or www.dollanstadtgallery.com.
